

MarkItDown PDF Test

This PDF was generated to verify that the MarkItDown converter correctly extracts text from PDF files and renders it as Markdown.

Section 1: Introduction

MarkItDown is an open-source library by Microsoft that converts a wide variety of file formats into Markdown. It supports PDFs, Word documents, Excel sheets, PowerPoint presentations, images, HTML pages, CSV files, and JSON data.

Section 2: Key Features

- Fast, lightweight conversion
- Preserves document structure (headings, lists, tables)
- Handles multi-page documents
- Zero external API calls required
- Open source (MIT license)

Section 3: Sample Table

Name	Role	Language	Score
Alice	Backend	Python	95
Bob	Frontend	TypeScript	88
Carol	DevOps	Bash	91
Dave	Data	SQL	84

Quote: "Any sufficiently advanced technology is indistinguishable from magic." - Arthur C. Clarke
